WORK EXPERIENCE

Avaloq
Innovation
Present

Feb 2018

Software Engineer

- Developing a trading platform to analyse risk and return of different asset allocation strategies. Built as a set of loosely coupled microservices which are developed, scaled and deployed independently as Docker containers, hosted entirely in Openshift.
- Organised and presented at company tech talks.

Royal Bank
of Scotland
Feb 2018

Sep 2016

Software Engineer

- Responsible for the delivery of innovative proof of concepts within different departments of the bank.
- Developed an AI-powered chatbot for internal use across multiple channels (intranet + facebook@work).
- Trained and mentored junior engineers on software development best practices and design patterns.

Innovation Consultant

- Technical and commercial evaluation of a large number of Fintech startups operating in fields like Data, Cloud Computing, Cyber Security and Payments. Focus on Israel and Silicon Valley.
- Experience in technical proof of concepts / pilots in several technology spaces.

University of
Manchester

Aug 2016

Sep 2015

Project Manager

- Led a team of 8 people during a flying drone design challenge (~30 weeks).
- Brought down the time for a complete test iteration from 1 week to 2 days by using agile techniques.

EDUCATION

Udacity
Nanodegree in Machine Learning

Graduated Mar 2018

University of Manchester, UK
MSc, Aerospace Engineering

Graduated Sep 2016
1st class

University of Genoa, Italy
BSc, Mechanical Engineering

Graduated Sep 2015
1st class

SKILLS

- 📋 Javascript, Typescript, Node.js, Java
- 💻 Angular, HTML5, CSS, Prototyping
- ☁ Openshift, PaaS, REST APIs, Docker, Microsoft Azure, Microservices
- 👥 Agile, GIT, CI / CD, Code reviews, Pair programming, Testing, Jira
- 🗄 SQL, NoSQL, Machine Learning, Tensorflow
- ♥ Linux, Open Source, Chatbots

QUALIFICATIONS

Microsoft M20532

Developing Microsoft Azure solutions

Scotland's Angular - Typescript Meetup

Co-organiser and speaker

Stack Overflow

Active [contributor](#) to the Stack Overflow open source community

European Rubik's cube Championship

Former [National records](#) in the single and multiple Blindfolded category

PROJECTS

JukeBox

Working as a software engineer to deliver new features for a Music - Gaming startup (part time collaboration)

Chars74k Neural Network

Built a neural network to recognise handwritten characters over a non-uniform background.

ECobot

AI sustainable living assistant, integrated with Messenger, Uber and Monzo. Won the 2nd prize at the Accenture Global Hackathon, London 2017
